Design Your Creative Class

Course Description

This course helps educators use the principles of great instructional design to bring creativity into any primary or secondary class of students. Educators taking the course hear from experts and educators regarding how to plan for and infuse creativity in their classes. This course explores how to choose, write and plan learning objectives for the primary and secondary class, and provides examples of creative learning outcomes in math, science, history or literature courses, and much more. Educators taking the course learn how Adobe's creative tools can aid instructional design, and how to share and learn in Adobe's global Creative Educator Community. The examples in this course on instructional design help prepare educators to integrate creativity into any content area.
